A Community of Careers

Our Montabella Elementary students traded their textbooks for tools and tales of the trade during Career Day! It was a day filled with curiosity, hands-on learning, and plenty of "When I grow up..." moments. Many of our students dressed up as nurses, doctors, farmers, military, construction workers, etc...to add to the fun!

From the lights and sirens of the fire trucks, to the intricate details of a bobcat mount, our students were treated to a front-row seat for the many paths their futures might take. We want to extend a huge **Thank You** to the local businesses and professionals who took time out of their busy schedules to invest in our kids. The weather was not ideal, but the kids were too busy exploring to notice!

We were honored to host a wonderful group of professionals who made the day truly special:

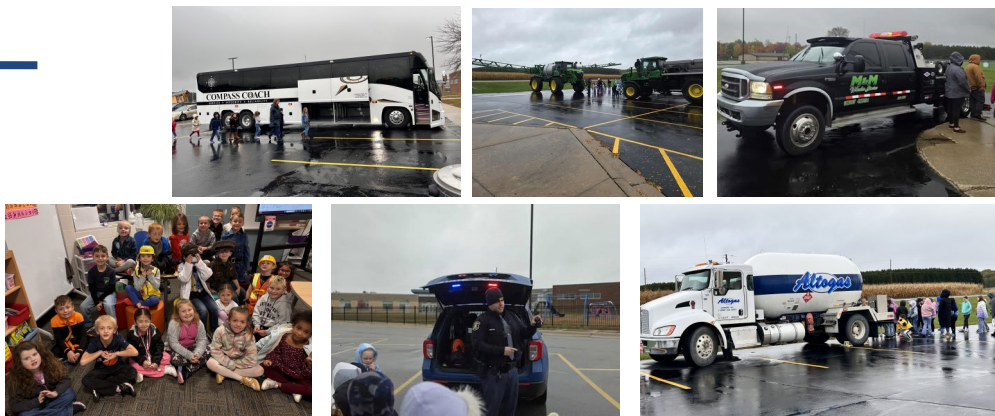

- **Safety, Service, & Sacrifice:** Our **Military** shared lessons in leadership and duty while our local **Police Officers, EMTs, and Fire Fighters** also showed us what it takes to be a hometown hero.
- **Braving the Elements:** Our students were captivated by the **Linemen** who work in every kind of weather to keep the lights on and our homes safe.
- **Ag, Industry, & Energy In Motion:** Students learned about the roots of our community through **Agriculture** (seeing a tractor, sprayer, or floater on the road or in the field is fun, but stepping inside one—AMAZING!), the **Propane** drivers who keep us warm, and the unique craft of **Taxidermy**.
- **Logistics in Motion:** Our students were intrigued by the "big rigs" and machinery, including the big **Road Commission Snow Plow/Salt Spreader, Charter & School Bus drivers, Shed Haulers, Tow Truck Drivers, and Hi-Lo Drivers.**
- **Sports & Strategy:** We even went behind the scenes of the game with a **Referee.**

"You can't be what you can't see." Because of your generosity, our students didn't just hear about these jobs—they saw them in action. We are so proud to be part of a community that invests so much heart into the next generation.

The Classroom and Artificial Intelligence (AI)

Lately, you've likely heard a lot about Artificial Intelligence (AI). It sounds like science fiction, but in reality, it's becoming a standard tool in the workplace. Much like the transition from the slide rule to the calculator, or the typewriter to the laptop, AI is the next step in how we work and learn.

There are some unique considerations for a school when it comes to AI. A lot of organizations, businesses and industries are starting to use AI regularly in the work force. The goal of all k-12 schools is to have students prepared for life after high school and that includes preparing them for the work force. The use of AI continues to grow and our students need to be prepared for the proper use of AI for that next step. On the other hand, we also want our students to be able to think critically and problem solve. If we have a computer to answer all our questions and problems, are we really preparing students to think? This is the unique crossroads that schools are at right now.

Montabella currently tries to keep as many AI sites as possible blocked for students. Everyone is well aware that assignments that are not completed in class have the possibility of being completed with the use of AI. We are introducing some AI tools to our staff so they become familiar with the capabilities. We have also started some conversations about what uses of AI for students could be acceptable and what would not be acceptable. We hope to engage some parents in the conversation as well. Our hope would be to find the right tool and the right way to introduce and allow AI for students. This will take some time as we research and pilot programs for their effectiveness.

AI will never replace the heart of our district; our teachers and the relationships that they can build with students. A computer can't cheer at a Friday night game, and it can't tell when a student is having a bad day. We are using these tools to enhance that human connection, not replace it.

We want our graduates to be "AI-competent," meaning they know how to use these tools ethically and effectively to solve problems. That is how we ensure our students have the same opportunities as others. We are treading forward with AI slowly and carefully since it is a complex issue.

Our Elementary students were able to taste test some homemade corn salad, prepared by our kitchen staff. By the smiles on their faces, they sure did like it. We love when the students try new food items! When they are well received items, we put them on our menu. Thank you to all that participated, we appreciate it. ~Ms. Hicks

All students are offered FREE breakfast and lunch for the 2025-26 school year.

Your Mustang Language Arts Team wrapped up the 2025-26 season with another strong performance in the poetry category topping the other seven teams in the third and final event. This resulted in a MSAC League Runner-up finish for the season.~Coach Lehman

**Congratulations on another great year and for maintaining the standard of
Montabella Language Arts.**

**Back-To-Back League Champions
Montabella Mustang Wrestling Team**

The 2025 Montabella Mustang football season wasn't just a series of games; it was a historic journey that redefined what it means to be "Mustang Proud." From the first whistle, to the final snap, this team carried the spirit of the community on their shoulders, finishing with an incredible 11-2 record and the first State Finals appearance in school history.

Excellence on the Field and in the Classroom

The accolades earned this season speak volumes about the culture built within this program. Leading the charge was Head Coach Tim Webb, who was deservedly named the 2025 Division 1 8-Player Coach of the

Year. Under his guidance, the Mustangs didn't just win; they dominated with heart, discipline, and a "never-quit" attitude that saw them through thrilling playoff comebacks.

More impressive than the trophies on the field was the dedication shown off it. The Mustangs proved that "student-athlete" puts the student first, earning a spot as an MHSFCA Football Academic All-State Top 4 Team in 8-Man Division 1!

A Community United

What made this season truly amazing was the way it brought us all together. We saw the entire community unite as one. From the navy and white at every game to the packed stands at the Yoooper Dome, the "Mustang Family" was louder and stronger than ever before!

The players now understand what an impact they have as role models. For some of us, the most cherished moments of the season happened off the turf. The varsity players were excited to go into the elementary classrooms to read a book about their journey. They topped it off with an autograph session where they signed a Mustang Football coloring book. The school-wide pep assemblies with lights, a tunnel, fog, and excitement was an electric energy that bridged the gap between high school and elementary students that created a true sense of Montabella! Did you know our Mustang can ride a unicycle?

The scoreboard will show a historic season, but the memories will show a community that rallied together, a school that stood united, and a team that represented us with class every step of the way.

Thank you, Mustangs, for the ride of a lifetime!

A Message From Montabella Alumni Association

Calling all friends of Montabella:

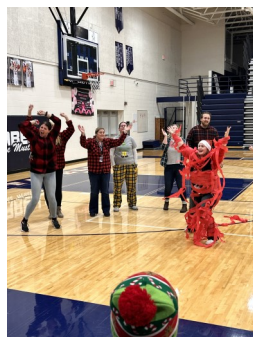

Here is a chance to continue our legacy!

If you contribute to this scholarship fund, you can help a deserving graduate further their education.

You can contact the Mt. Pleasant Community Foundation directly by calling (989)773-7322 or writing to PO Box 1283, Mt. Pleasant, MI 48804. You can also contact the foundation through their website: www.mpacf.org for further information.

You can use the QR code listed below and contribute directly to the Montabella Alumni Association Scholarship Fund.

Be sure to tell other Montabella friends about this opportunity to help our fellow Mustangs!

Holiday assemblies always offer a lot of entertainment for our students. Mrs. Margo shocked everyone with her cookie eating skills, and the staff decorated Santa with a jolly red suit while protecting it from the Grinch!
